

Pomorski Uniwersytet Medyczny w Szczecinie

Rektor

To Whom It May Concern!

On behalf of the academic community of the Pomeranian Medical University in Szczecin, I am very honored to invite you to the Third National Scientific Conference of the Humanistic Aspects of Pharmacy series held on 9-11 May 2025 in Szczecin.

This event serves as a great opportunity to discuss philosophical and ethical aspects of clinical and oncological pharmacy, and learn about innovative undertakings in pharmaceutical sciences. I strongly believe that a meeting of the pharmaceutical community, a group of experts from both Poland and abroad, will contribute to the development and enrichment of the pharmaceutical profession.

Yours faithfully

prof. dr hab. n. med. Leszek Domański

Rector of the Pomeranian Medical University in Szczecin
